INTRODUCTION

When you hear the term “X-wing,” do you think of a Starfighter ship from *Star Wars*? Is a “jellyfish” only something to be avoided at the beach? Is a “Gordonian rectangle” less familiar to you than Pascal’s triangle? If so, you probably haven’t delved into the world of extreme sudoku, where these are some of the advanced solving techniques that are needed to get to the solution.

If you’ve never solved a sudoku puzzle before, here’s how it works:

Fill in the boxes so that the nine rows, the nine columns, and the nine 3×3 sections all contain every digit from 1 to 9.

Below is a sample puzzle on the left, and its solution on the right.

		2	6	4				8
3					7		4	
							5	
5	1		4			3		
		7				4		
		9			1		7	2
	7							
	9		7					4
2				3	6	1		

9	5	2	6	4	3	7	1	8
3	8	1	2	5	7	9	4	6
7	6	4	1	8	9	2	5	3
5	1	6	4	7	2	3	8	9
8	2	7	3	9	5	4	6	1
4	3	9	8	6	1	5	7	2
6	7	3	9	1	4	8	2	5
1	9	5	7	2	8	6	3	4
2	4	8	5	3	6	1	9	7

If you are actually studying the two grids above because this is your first time trying sudoku, slowly close the cover of this book and back away without making any sudden movements. This is not a book for beginners. If you’re just starting out, read *Mensa Guide to Solving Sudoku* by Peter Gordon and me. But if you’re a seasoned pro and aren’t intimidated by swordfish, XY-wings, XYZ-wings, alternating digits, finned X-wings, Gordonian polygons, turbot fish, and other scary-sounding techniques, then your search for a book that will truly challenge you has finally ended.

I have found that the vast majority of sudoku puzzles that are labeled “hard,” “expert,” “challenger,” and the like, in newspapers, magazines, and books, are not really all that difficult. And in a surprising number of cases, they are downright easy. They usually require only intermediate solving techniques. Some of them might

require a combination of these techniques, but they are intermediate techniques nonetheless. In the *Mensa Absolutely Nasty Sudoku* books, you will find puzzles truly worthy of the label “hard.”

The puzzles increase in difficulty throughout the four books in the series. In Level #1, only basic and intermediate techniques are required, but they are not beginner puzzles. In Level #2 and Level #3, more advanced techniques are added to the mix, and by Level #4 you can expect not only the most advanced techniques, but puzzles that require multiple advanced techniques in each puzzle.

Despite the difficulty of these puzzles, none of them require flat-out guessing to complete. All of the above-mentioned advanced techniques are simply methods that will logically get you to the next step in the solving process, whether you give them a fancy name or not. So if you're new to solving *really* hard sudoku puzzles, be patient, be willing to stretch your mind to see connections you wouldn't have thought to look for before, and be confident in knowing that there will always be something you can find that will get you to the next step. (That is, assuming you haven't made any errors!)

And just think, after you finish *this* series, you'll be able to impress those around you by tossing off any newspaper or magazine “super challenger” puzzle at lightning speed!

—FRANK LONGO

WHAT IS MENSA?

Mensa® **The High IQ Society**

Mensa is the international society for people with a high IQ. We have more than 100,000 members in over 40 countries worldwide.

The society's aims are:

- to identify and foster human intelligence for the benefit of humanity;
- to encourage research in the nature, characteristics, and uses of intelligence;
- to provide a stimulating intellectual and social environment for its members.

Anyone with an IQ score in the top two percent of the population is eligible to become a member of Mensa—are you the “one in 50” we’ve been looking for?

Mensa membership offers an excellent range of benefits:

- Networking and social activities nationally and around the world;
- Special Interest Groups (hundreds of chances to pursue your hobbies and interests—from art to zoology!);
- Monthly International Journal, national magazines, and regional newsletters;
- Local meetings—from game challenges to food and drink;
- National and international weekend gatherings and conferences;
- Intellectually stimulating lectures and seminars;
- Access to the worldwide SIGHT network for travelers and hosts.

WARNING!

ONLY THE MOST SKILLED SUDOKU EXPERTS SHOULD TRY THESE MIND-BLOWING PUZZLES. MAKE NO MISTAKE ABOUT IT.

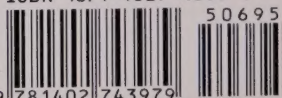

Some of the hardest sudoku ever created are presented in this **Absolutely Nasty™** series. Mere sudoku enthusiasts are strongly advised against trying to fill in even one of the grids as frustration and pencil-biting will occur. And please, for pity's sake, neophytes shouldn't even bother to open the cover. These brain-baffling puzzles should be attempted by only the best and the brightest sudoku-solvers. If you think you're up to the challenge, proceed at your own risk. At **Level 2** you'll need to sharpen your pencil and your wits because it's going to get harder as you go.
